Branch Fringe

For your personal use only. If you are taking a class and using these instructions it is without my permission. Instructors please contact me for details.

use only. If you are taking a class and using these instructions it is without my permission. Instructors please contact me for details.

String your main branch as long as desired.  
Turn and go back adding branches.  
Warning This can be addictive.  
I fine myself branching off of branches off of branches.

Kinky fringe

#15 seed's>><<#11 seed's

Alternate, ending with a 15. Turn and go back through the #11's only. Pull thread to "kink" up. Vary the lengths & make as many or as few as desired. The tighter you pull the thread, the "kinkier" the strand will be. As always.....  
Your choice.
